We cannot guarantee any tree, shrubs and plants sold by us, other than that they are true to name and free from any disease, and hold ourselves prepared to replace, on proper proof, all that may prove to be otherwise. We do not give any warranty, express or implied, in respect of them. Any and all such goods are sold upon the express condition and understanding that in case any of them prove to be untrue to name, unhealthy or otherwise defective, we shall not be held responsible for a greater amount than the original price of the goods. In no case do we assume any responsibility for safety of the stock after shipment, except for our own mistake.

*Grafted plants from pots, 5-7", Spring, 1938 shipment*

Per 10, \$10.00; per 100, \$85.00; per 1000, \$750.00

JUNIPERUS pfitzeriana Kallay's compacta is an ever-green that everyone has been looking for. It has all the qualities of the well known Pfitzer's juniper—light gray green foliage, smoke and disease resistance, perfectly hardy, and easily transplanted. In addition it grows in a compact form.

Instead of having irregular broad branches that tend to grow upwards, leaving the center low as the ordinary Pfitzer's juniper, it sends out small regular branches that are full

clear to the ground with a full center. As the ordinary Pfitzer's juniper gets old it tends to get "leggy." This new variety remains always bushy and compact.

It can be used in formal planting as a globe type of evergreen, as a hedge, or in informal planting as a facer to higher evergreens or deciduous planting.

It is an excellent evergreen for house foundation planting or in masses for park effect. It is the favorite Pfitzer's juniper PLUS.
